MDNR Map.pptx  
West Lake Jan2013 Public Meeting for MDNR.pptx

Joletta,

MDNR, not EPA, is the government agency authorized to regulate the sanitary landfill that your questions address. At the January 17, 2013 meeting, EPA incorporated in its powerpoint a map created by MDNR that shows the landfill. I am attaching that map. I am also attaching the powerpoint. However, your questions need to be directed to MDNR. If you have questions regarding the other portions of the West Lake site, please contact me.

Subject: Republic Services Landfill/ West Lake landfill

I would like to ask you if you could email me a map of where exactly the odor mitigation construction work such as wells, mainforce lines, membrane locations and others controls are being implemented and developed on the landfill area. During the last EPA's public meeting there was an exhibit showing where the fires/odor problems are located or originating from and location of the Unit with radioactive impact; could you email me a copy of this map?

Could you email me a copy of your presentation as per this public meeting?

Based on the Order issued by MDNR as of February 1, 2013 the Landfill needs to develop plans to remedy violations and nuisances; we need information about locations and types of the remedies.

I appreciate your assistance. Thank you so much.
